MEDICAL.

FRENCH MEDICAL OFFICE.

DR. JULIEN PERRAULT, Doctor of Medicine of the Faculty of Paris, Graduate of the University Queen's College, and Physician of the St. John Baptiste Society of San Francisco.

DR. PERRAULT has pleasure to inform patients, and others seeking confidential medical advice, that he can be consulted daily at his office, Armory Hall Building, North-East corner Montgomery and Sacramento streets, San Francisco. Rooms No. 9, 10, 11, first floor, up stairs entrance either Montgomery or Sacramento streets.

DR. PERRAULT'S studies have been almost exclusively devoted to the cure of the various forms of Nervous and Physical Debility, the results of injurious habits acquired in youth, which usually terminate in impotence and sterility, and permanently induce all the concomitants of old age. Where a secret infirmity exists involving the happiness of a life and that of others, reason an: morality dictate the necessity of its removal, for it is a fact that premature decline of the vigor of manhood, matrimonial unhappiness, compulsory single life, etc., have their sources in causes, the germ of which is planted in early life, and the bitter fruit tasted long afterward; patients, laboring under this complaint, will complain of one or more of the following symptons: Nocturnal Emiselons, Pains in the Back and Head, Weakness of Memory and Sight, Discharge from the Uretha on going to stool or making water, the Intellectual Faculties are Weakened, Loss of Memory ensues, Ideas are clouded and there is a distinclination to attend to business, or even to reading, writtign or the society of friends, etc. The patient will probably complain of Dizziness, Vertigo, and that Sight and Hearing are Weakened and sleep disturbed by dreams, melancholy, sighing, palpitations, faintings, coughs and slow fever; while some have external rheumatic pain, and numbness of the body. Some of the most common symptons are pimples in the face and aching in different parts of the body. Patients suffering from this disease, should apply immediately to DR. PERRAULT, either in person or by letter as he will guarantee a cure of Seminal Emissions and Impotence in six to eight weeks.

Patients suffering from venereal diseases in any stage Gonorrhea, Gleet, Strictures, Bubo Ulcers, Cutaneous Eruptions, etc., will be treated successfully. All Syphilitic and Mercurial Taints entirely removed from the system.

DR. PERRAULT'S diplomas are in his office, where patients can see for themselves that they are under the care of a regularly educated practitioner. The best references given if required.

Patients suffering under chronic diseases, can call and examine for themselves. We invite investigation: claim not to know everything, nor to cure everybody, but we do claim that in all cases taken under treatment we fulfil our promises. We particularly request those who have tried this boasted doctor, and that advertised physician, till worn out and discouraged, to call upon us.

Low charges and quick cures.

Ladies suffering from any complaint incidental to their sex, can consult the doctor, with the assurance of relief.

Female Monthly Pills.

DR. PERRAULT is the only agent in California for DR. BIOT'S Female Monthly Pills. Their immense sale has established their reputation as a female remedy, unapproached, and far in advance of every other remedy for suppressions and irregularities, and other obstructions in females. On the receipt of five dollars, these Pills will be sent by mail or express to any part of the world, secure from curiosity or damage.

Persons at a distance can be cured at home, by addressing a letter to DR. PERRAULT, corner of Sacramento and Montgomery streets, Rooms 10 and 11, or Box 978, P. O., San Francisco, stating the case as minutely as possible, general habits of living, occupation, etc., etc.

SEMI-WEEKLY ENQUIR E

SOME SPECIMENS OF THE "NOBLE SAVAGE." The New York *World* relates the following horrible story:

Captain Barlow, of General Sherman's staff, arrived at St. Louis, on Wednesday, from Fort Dodge, where he saw two white girls named Doyle, one 17 and the other 12 years old, who had been ransomed from the Kiowa Indians. The girls say that on 27th of August last, the Indians attacked their home in Northwestern Texas, and killed, scalped and burned their father. Themselves, mother, and a sister eight years old were carried off into captivity, and treated in the most cruel and revolting manner. On arrival at the Indian camp, the captives were knocked senseless with clubs, repeatedly ravished by the fiends, and were treated in this manner four or five times a day. On hearing [illegible] on, the commanding officer at Fort Dodge, not having [illegible] sent them to their friends in Texas as soon as they recover from their terrible sufferings. While in the Indian camp, [illegible] their ransom saw the captives knocked down three times and violated.

PARRICIDE IN ILLINOIS.—A horrible murder was committed in Augusta, Ill, last week. Jesse Rose killed by his son James, aged nineteen, who afterwards confessed his guilt and declared that his mother had instigated the deed. It appears that the father, Jesse Rose, had been in the habit of drawing the money his sons had earned by their labor in the neighborhood, and said he was going to draw some forty five dollars, due the eldest son—who is nineteen years old—on Friday last. His son told him if he did he would kill him. The father went to spelling school on that day, but did not get the money. The son however, supposing he had got it, by his mother's instigation, and accompanied by his younger brother, hid behind a stump, near some bushes, by which his father would return, and struck him with an axe, knocking his brains out, and then cut his throat with a butcher knife.

SHOOTING AFFAIR.—We clip the following from the Sac *Bee* of the 19th inst:

At twelve o'clock, last night, in the bar-room of the Union Hotel, on Second street, a difficulty took place between two sporting men named Perkins and Brady. We have not heard the first cause of the misunderstanding, but the parties at length got so excited that Perkins, slapping Brady in the face, the latter drew his Derringer and fired, the ball inflicting a slight flesh-wound in the left arm. Perkins drew his Derringer and aimed to shoot Brady, but his weapon missed fire. At this stage of the game bystanders interfered and prevented further demonstration. Dr. Clapp dressed Perkins' wound. The belligerents were to-day arrested and will in a day or two be arraigned before the Police Court.

LAZINESS IS THE DEVIL'S CUSHION." Do not run much from home. One's own hearth is of more worth than gold. Many a marriage begins like a rosy morning, and then falls away like a snow-wreath. And why? Because the married pair neglect to be as well pleasing to each other after marriage as before. Endeavor always to please one another. Consider, ye daughters, what the word "wife" expresses. The married woman is the husband's domestic faith; in her hand he must be able to entrust the key keeping his well-being in her hand. Think of this! And you ye sons, be faithful husbands, and good fathers of families.

COSTLY APPAREL.—Madame Ristori's favorite "street costume" appears to be a dress of the heaviest black damask silk, with large white silk stars woven into the texture of the fabric in a manner which makes the stars look as if they were made of silver; her head dress white lace lappets of the most costly and fairy like workmanship, hangs pendant and covering the ears, reaching down to where the dress is fastened at the throat; and from each hear a string of diamond drops, fourin number, valued at $12,000—very massy in their appearance. She uses a parasol of the finest red heaviest white silk, and a Chinese fan of intricate workmanship.

THE CODIFICATION OF THE LAWS.—On the 1st of September the commission, consisting of Caleb Cushing and Judges James and Johnston, appointed to revise and codify the statutes of the United States, organized, and it is announced that they have now begun their labors. This commission will probably sit for three year before their work will be completed. This is said to be the first attempt yet made to revise and codify the laws of the United States, which now fill fourteen large volumes, and embrace the laws passed by thirty-nine Congresses, during the last seventy-seven years.

A HAPPY SIGHT.—The "local" of the Lynchburgh (Va.) *News* thus describes a happy sight which he witnessed on Monday in that city: "We saw a woman yesterday from the country, promenading Bridge street, underneath a new spoon-bowl hat decked with a rooster feather, inside of a tilting "skeert," before a huge waterfall, having in her mouth a corn-cob pipe, and in her arms a baby about two months old. She looked like she felt she was in Mahomet's Seventh Heaven, and was just ready to exclaim, cut my straps and let me go to glory. She was a curiosity."

TRAGICUS OF HIS RIGHTS.—The Boston Correspondent of the *Union* "throws off" the following:

"A man who had been putting too much water in his whisky at one of our hotels felt a nausea and stepped on the sidewalk to cast up his accounts. He retched violently but was unable to discharge cargo. A sympathizing bystander suggested that if he should put his finger down his throat it would facilitate matters. The sufferer turned upon the officious a look of drunken dignity, saying: "D—d if I eh-eh' don't liketerknow who't you'r I'se bossin this puke!"

LOYAL SLAVE OWNERS.—The President is about to appoint Commissioners for Maryland, Kentucky, Delaware and Missouri, under the recent act of Congress to make awards in sums of not more than $300 each to loyal owners of slaves, where the latter enlisted in the United States army. Where an award is made it is to be paid out of the draft commutation fund, especially set apart for the purpose by Congress.

A MEDAL.—Andy Johnson has caused to be prepared a huge silver medal, for an Indian with an unpronounceable name, on one side of which is a picture of Washington, and on the other side a picture of himself, and supposed to be symbolical of the *head* and *tail* of Republicanism. On the medal Andy modestly inscribed himself the "Father of his Country."

While the celebrated giant Ching (height about eight feet, weighing twenty stone,) was on exhibition at Worcester, England, the prodigy stumbled, and out rolled two bodies, one of which had been hoisted "a top o'tother."

THOUGHTFUL WOMAN.—"Let none but women be killed, as they can't vote," was the patriotic utterances of a lady at the West, during the confusion resulting from the overturning of a bench at a political meeting.

THE British Government has agreed to guarantee a loan of $22,000,000 to establish the British North American Confederation, which is to include the Hudson Bay Territory.

A LETTER from Switzerland states that a movement has been set on foot among the Jews in Europe which has for its object either to buy or invade Palestine from the Turks.

PERCUSSION telling and filling loops operate differently. The former reveal what the lady will be in the future; the latter reveal what she is at present.

CHAMPAGNE from Kentucky has been sold by Messrs. Osgood and Torrence to Mr. Leonard Jerome, for the princely sum of $40,000.

It is better to love the person you cannot marry than to marry the person you cannot love.

SEMI-WEEKLY ENQUIRER.

SATURDAY MORNING, NOV. 24th.

THE POWER OF REMOVAL.—The immense patronage wielded by the Federal Executive; the multitude of subordinates whose appointments are directly or indirectly controlled by his will, and the vast amount in salaries and emoluments which attaches to those appointments has long been a subject of serious consideration and concern, to reflecting citizens. The dangerous use which might be made of this tremendous power by a bold, bad man, and the temptations to which it subjects even the best, have been urged and pressed as reasons for the arrangement of a system of judicious checks upon its corrupt use by the President. The gross perversion of the appointing power by our present Chief Magistrate, has demonstrated the wisdom of these suggestions. The career of this infamous renegade can but be accepted as conclusive evidence of the necessity for reform in this department of the Government. We do not propose to discuss the issues involved in the controversy now raging concerning the legality or constitutionality of President Johnson's wholesale removals for opinion's sake. These issues have reference only to the Constitution and laws, *as they are*, and the established usage of the past. We by[illegible] our inquiries to the question of *what should be in the future*, as suggested by experience and reflection. We have frequently heard or met with suggestions of changes of our system in this respect which contemplated transfers of the appointing power to[illegible] departments, or other methods which would equally demand the amendment of the Constitution, but we are of opinion that the power now rests in the proper department, and that all needed changes can be effected consistently with the Constitution as it now stands. The second clause of section 2 of article 2 of the Constitution, reads as follows: "He (the President) shall have power, by and with the advice and consent of the Senate, to make treaties, provided two-thirds of the Senators present concur; and he shall nominate, and by and with the advice and consent of the Senate, shall appoint ambassadors, other public ministers and consuls, judges of the Supreme Court, and all other officers of the United States, whose appointments are herein not otherwise provided for, and which shall be established by law; but the Congress may by law vest the appointment of such inferior officers, as they think proper, in the President alone, in the courts of law or in the heads of departments. The President shall have power to fill up all vacancies that may happen during the recess of the Senate, by granting commissions which shall expire at the end of their next session." From the first sentence to the last, in this clause, the advisory and co-ordinate powers of the Senate are never lost sight of, while the Congress may, in certain cases, divert the appointing power completely. We can perceive no bar to such legislation by Congress as would vest inferior appointments in heads of departments exclusively, and make such heads independent of the President, except for dereliction or malfeasance, denying him the power even of suspending them, except on direct charges which should only work suspension until a United States Grand Jury should adjourn, unless that body sustained the charges. Then, again, Congress may declare what shall and what shall not constitute "vacancies," and by such definition curtail the President of the power to create "vacancies" for political differences. Besides, we cannot recall any constitutional bar to the continuous session of a quorum of the Senate in connection with its duty of advising and consenting to appointments or removals. Certainly, unless we would see our people subsidized and debauched by the Executive, clear and explicit enactments are demanded in this connection.

SERIOUS IF NOT FATAL.—Rosa Celeste, who has for some time been catering to the vitiated tastes of the California public by perilous feats of funambulism, undertook to wheel Jimmy Kennovan, the famous pedestrian, up a tight rope at the Willows, on Sunday last. Kennovan was somewhat intoxicated, and became frightened during the ascent, which led to his making awkward efforts to steady the barrow in which he was seated. The effect of his efforts was the reverse of his intentions, and Rosa was unable to keep the barrow on the rope or maintain her balance. The consequence was the precipitation of both into the ring beneath, the wheel of the barrow striking Kennovan, lacerating him severely and well-nigh severing one ear from his head. Rosa retained her balance pole, which broke her fall, but she was severely injured. It is yet doubtful whether either will recover. The public curiosity which seeks gratification by the exhibition of this class of perilous performances is morbid and vicious, and such exhibitions have a hardening effect on public sensibilities, and are totally devoid of refining tendencies. They should be subjects of the same class of legislation as bull and bear fights and other barbarous amusements.

WHY NOT?—The Nevada *Gazette*, in noticing our account of Mr. Thomas' enterprise, commends his idea, so far as supplying the principal mining counties and the State of Nevada is concerned, but thinks that "Dutch Flat is not the best location for a manufactory of fuse to supply the whole coast." As our neighbor fails to state his reasons for this opinion, we are inclined to the belief that he has not thoroughly considered the subject. Fuel and tar are the principal articles required for the manufacture of fuse, and the transportation of those articles is the great item of cost to be considered in establishing a manufactory. It would be difficult, if not impossible, to find a locality where both of these could be more abundantly and cheaply procured than here. After manufacture, fuse is a very light commodity to transport, and, the railroad being at our very door, communication with all parts of the coast is quite convenient. We would like to have the *Gazette* suggest a more desirable point for this business, and its reasons for so considering it.

THE STAPLE OF LIFE.—From an article in the *Alta* of the 21st on the wheat production of the United States, we glean the following statement of the production of the several sections of our Union, which shows a proportional preponderance in favor of the Pacific States, quite surprising to us, as we doubt not it will be to a majority of our readers. In 1860 the different sections produced wheat, as follows:

New England, with a population of 3,838,334, grew 1,077,365 bushels, or 11 quarts per head.

Middle States, with a population of 10,672,641, grew 45,051,210 bushels, or 3¾ bushels per head.

Southern States, with a population of 8,585,791; wheat, 31,361,846 bushels, or 3⅔ bushels per head.

Western States, with a population of 7,670,311; wheat, 65,994,371 bushels, or 9¾ bushels per head.

Pacific States, with a population of 402,345; wheat, 7,944,539 bushels, or 19.40 bushels per head.

THE AVERY-BIGLER AFFAIR.—Lucien Curtis, the Special Commissioner or Agent of the Treasury Department, received orders from Washington, a few days since, to go to Sacramento and arrange matters in connection with the dispute concerning the Assessorship. Curtis accordingly visited Sacramento, and after a thorough examination of the circumstances, arranged that Mr. Briggs, the Collector, should receive the rolls and make collections on them, when received, either from Bigler or Avery, whichever the Assistants saw fit to communicate with him through. Under this arrangement the Deputies are the virtual "masters of the situation."

IMMIGRATION.

Many influential cotemporaries throughout the State are devoting much space to a consideration of the fittest methods of securing the immigration to our shores of the classes most needed for the development of our immense dormant resources. The San Francisco *Times*, in a late issue, suggested the idea that the General Government might appropriately and profitably employ a number of idle steamers and ships-of-war in giving free passage to those who might desire to settle in our midst, but who are prevented by the extraordinary expense involved. The *Call* scouts this idea, riding off at a tangent on the hypothesis that none but paupers would be tempted to avail themselves of such facilities, and asserting, very truly, that Old World paupers do not constitute the desirable class. The Sacramento *Union*, like President Johnson, has a policy which will admit neither of variation nor shadow of change. The *Union* neither hearkens to, nor is it disposed to tolerate any proposition to populate our State except through the medium of "that great national enterprise," the Pacific Railroad. All are agreed that our State is possessed of immense resources requiring development, and that extraordinary inducements are offered for the settlement of intelligent, frugal and industrious laborers. There are few who doubt but that the completion of the railroad connection with the Eastern States will[illegible] of valuable population, but there are fewer still who are willing to forego all other means until the consummation of that desirable event. The ground of the *Call*'s objection to the *Times*' proposition is clearly untenable. It is transparently fallacious that none but paupers would be influenced by the inducements which cheap or free passage would offer. On the contrary, the very class which we most need would be strongly influenced by such considerations. And yet, considering the *Times* proposition from a National, rather than a local point of view, we consider it subject to a rational objection. The necessity which it proposes to meet is a matter of State concernment, almost exclusively. That portion of the Old World population which we would consider a desirable acquisition, is equally desirable in other portions of the National domain to which it now tends because less expense is involved. The acquisition of this population will be equally beneficial to the General Government, whatever State or Territory it may migrate to. If this be true, we imagine that the writer of the *Times* article, himself, if the agent of the Government in the premises, would transport the population to that point which he could reach at the least expense and to which he could bring the greatest number for a given amount. It is as a Californian interest, demanding Californian exertions, expenditures and encouragement, that we should properly consider this subject. We must not look abroad or ask of the General Government unfair discrimination in our behalf, but take hold of this matter ourselves. Our merchants, manufacturers, large landholders and legislators must take a broader, more comprehensive and liberal view of this question than has heretofore been their custom. California is entirely capable, if those most interested will act harmoniously, to divert to her shores a very large per centage of the tide of German travel that now tends towards the less hospitable and inviting northwest. To do this, she has but to imitate the example of her more enterprising sister States. By concert of action on the part of those interested throughout the State, an association should be formed and agents sent to those points from which the needed population makes its departure. These agents should be prepared to submit the actual inducements offered for settlement in California in an authoritative and convincing form. Means of transportation should be furnished at rates as low or lower than those to the points now favored. Our State, by appropriate legislation, should loan its credit to the Association thus formed and tax the interests to be benefited accordingly. Our capitalists should subscribe to a fund to be disbursed as loans to aid permanently settled immigrants. Properly inaugurated, managed by the shrewd and safe businessmen abundant in our State, California is amply able, independently of the General Government or any outside influence, to turn a current of population to her shores that will enrich her beyond computation and place her where she properly belongs, in the front rank of American States.

GOOD TIME AT GOLD RUN.—The dedication of the Good Templar's Hall at Gold Run, on Wednesday evening last, was made the occasion of a large social gathering of the citizens of that place, Dutch Flat and the surrounding country. Jacob Lindsay, Esq., the District Deputy, superintended the ceremonies of dedication and delivered an interesting and instructive address. After the ceremonies, a large concourse adjourned to Rice's Hall, at which place and Thorn's Hotel ample and perfect arrangements had been made for a delightful social party and excellent supper. From those who attended we have heard but one expression, they were all highly pleased and say that nothing was left undone to make the occasion delightful and memorable. It is an established and conceded fact, that when the Gold Runners spread themselves to do the agreeable, they "do it up brown." Such is the verdict in this case, and we have heard of no motion for appeal, though all would consent to a new trial.

BELLIGERENT.—John B. Urmy, late a Colonel, and Henry Malcom, late captain in the Mexican-Liberal service, are having a "high old time" in San Francisco. They are having a controversy as to the true character of the D'Artois capture of the Basco, referred to in our last issue. The controversy is enlivened by such expressions as "liar," "villain," etc., while mouth-slapping, knock-downs and the like, give zest to the entertainment, and vent to the belligerent propensities which vainly sought an outlet in the maintenance of the Monroe doctrine. In this and all similar cases where parties seem "spiling for a fight," our liveliest sympathies become excited and we become conscious of an ardent desire that all hands may be soundly thrashed.

OUR INFLUENCE.—In our issue of Nov. 3d we published an article in which we advocated the disposal of the gold surplus in the U. S. Treasury. No more than sufficient time for that issue to reach Washington has intervened, and the telegraph informs us that Secretary McCulloch is acting on the suggestion. This is as it should be—our public servants must heed the voice of the people.

MINING PROSPECTS.—We are gratified, says the Gold Hill *News*, to state the daily yield of our mines, thus far in November, exceeds the product for any similar term since the discovery of the Comstock. Every mill is at work, and the life and animation imparted to each branch of industry (not excepting the Gold Hill *News*,) is peculiarly pleasant. So far as we can see into the mines, this condition of things will exist all winter. Glory to Comstock!

PECULIARLY FLORAL.—In New York, recently, A. *Ross* was arrested by Officer *Garland* for violating the statutes by breaking into *Plants'* store and rifling a *Lillie's* safe. He was arrested at the *Daisy* saloon and taken to the 13th precinct station, where he was left in charge of Sergeant *Pinkney*.

NOT SUICIDE.—Young Grinnell, whose sudden death was attributed to suicide in the San Francisco telegram contained in our last issue, really died of pulmonary apoplexy. Such was the evidence on the investigation by the Coroner.

ALTA CORRESPONDENCE.

ALTA, November 22, 1866.

ED. ENQUIRER:—After an absence of a week I returned here; found matters and things somewhat changed; population is departing; teams are much fewer than formerly. The air of bustle and business, which heretofore was everywhere visible, is gone; houses are being vacated, and everything betokens an Exodus. Of course Cisco is the next point in view, and the main topic of conversation is in regard to the time the railroad will reach there. In regard to this there is a considerable diversity of opinion. One week ago, I was positively informed that they were only five miles from Cisco; to-day I am told that they are more than four miles off, and that considerable grading has yet to be done in that distance, owing to some error in prior surveys—but I am tired of hearing all of these tales and rumored delays. I make it, that if the weather continues good so long, and there is every indication it will do so, in one week at farthest, from this date, the cars will be running to Cisco, and probably in a less time than that.

Now, in regard to their being able to run during the winter to that point, although there be many prophets to the contrary, I say there is no doubt whatever about it. If the track holds firm to Alta, it also will to Cisco, and it will, I am certain, be kept open—it can and will be done.

I have nothing of importance to give you in the way of accidents or crime, something very unusual for this place, you will say. I suppose the community of disorderly characters have gone ahead of the railroad, and will give Cisco a lively time in that line. Fortunately for them, it is indeed, that they have a separate township, and can nip them in the bud at home. I am informed that Cisco is more "on the rough" than Alta was. If so, it is a delectable place, but I can scarcely believe it. What will it be when the railroad reaches the Summi Evidently a "high" old place then. BOURBON.

DEBATING CLUB.—Sundry of our citizens met together on Saturday evening, the 17th inst., and took the preliminary steps to the formation of a debating club. On Tuesday evening last the organization was perfected and the Dutch Flat Congressional Debating Club is among the things that are. Mr. W. D. Harriman presided on Tuesday evening and the members are to alternate as presiding officers, weekly, in alphabetical order. The question for debate on next Tuesday evening is:

"*Resolved*, That the negro should be allowed the suffrage."

Messrs. J. Lindsay and C. J. Brown are to be Chief Disputants on the occasion. The affirmative is to be sustained by Messrs. C. J. Brown, Minor Frink, J. W. Fulwiler and Dr. M. W. Wilson and the negative by Messrs. J. Lindsay, E. H. Gaylord, W. D. Harriman, J. French and J. T. Mathewson. There is sufficient talent on each side to make the debate highly interesting, especially as some of the disputants will be compelled to controvert their well known convictions and predelictions. We bespeak a general turn-out of citizens, and guarrantee a pleasant evening to all who do so.

HOPE FOR THE AFFLICTED.—In another part of this paper will be found the advertisement of the celebrated Institute established by Dr. J. C. Young, in 1850. In this age of deceit and charlatanism, it is a boon to the suffering to point out to them where they are sure of obtaining the wished for relief and cure. Under the care of the skillful Doctor the sick and trembled can divest themselves of their burdens of pain; lay aside their cross, and secure health and happiness. If you are sick or in trouble, do not hesitate. Read the advertisement and follow the advice. Do not forget the number or the manner of directing your letters. Consultation Office, 540, Washington street, San Francisco. Dec-8m

MEDICAL ADVICE.—DR. WM. K. DOHERTY'S Medical and Surgical Institute is becoming a sine quo non to the welfare of our State and health of our citizens; and his rapidly spreading reputation, although it may excite surprise, is but the signal of skill, and follows as the natural result of such a cause. We are personally acquainted with gentlemen who had suffered for years under chronic disease, and who had taken advantage of every available means that promised relief, but without success, until they called upon Dr. Doherty, who, in an incredibly short space of time, has given them entire relief. It is gratifying to announce this fact, because the Dr. is a gentleman who seeks, not by defamation of others to establish his reputation or ruin of another's fame. The Doctor conducts his own Institute in such a manner must be gratifying to all his patients. He examines, advises, and recommends without charge, and the patient, after hearing his terms for treatment, can accept or reject at pleasure. In no case does the Doctor make a charge unless he effects a cure. This he is able to do, because he feels the confidence which long experience has given, and no doubt the consolation which appertain to that confidence. Persons afflicted with either acute or chronic disease, would do well to consult the Doctor; at all events, it can do no harm, as for consultation he asks no fee; nor does he insist on obedience to his advice unless the patient places himself under his care. His offices are on Sacramento street, opposite the Pacific Mail Steamship office.—News

A NEW AND GRAND EPOCH IN MEDICINE.—Dr. Maggiel is the founder of a new Medical System! The quantitarians, whose vast internal doses enfeeble the stomach and paralyze the bowels, must give precedence to the man who restores health and appetite, with from one to two of his extraordinary Pills, and cures the most virulent diseases with a box or so of his wonderful and all-healing Salve. These two great specifics of the Doctor are fast superseding all the stereotyped nostrums of the day. Extraordinary cures by Maggiel's Pills and Salve have opened the eyes of the public to the inefficiency of the (so called) remedies of others, and upon which people have so long blindly depended. Maggiel's Pills are not of the class that are swallowed by the dozen, and of which every box fail taken creates an absolute necessity for another. One or two of Maggiel's Pills suffices to place the bowels in perfect order, tone the stomach, create an appetite, and render the spirits light and buoyant! There is no griping, and no reaction in the form of constipation. If the liver is affected, its functions are restored; and if the nervous system is feeble, it is invigorated. This last quality makes the medicines very desirable for the wants of delicate females. All Ulcerous and eruptive diseases are literally extinguished by the disenfectant power of Maggiel's Salve. In fact, it is here announced that MAGGIEL'S BILIOUS, DYSPEPTIC AND DIARRHŒA PILLS cure where all others fail. Which for Burns, Scalds, Childbiains, Cuts and all abrasions of the skin MAGGIEL'S SALVE is infallible. Sold by J. MAGGIEL, 11 Pine street, New York, R. H. McDonald & Co., San Francisco, and all Druggists, at 25 cts. per box. jy 7 12m

THE LIGHT OF THE WORLD.

DR. MAGGIEL'S

PILLS AND SALVE!

These Life-giving remedies are now given to the world. For over a quarter of a century of private practice the ingredients in these

LIFE-GIVING PILLS!

Have been used with the greatest success. Their mission is not only to prevent disease, but to cure. They search out the various maladies by which the patient is suffering, and re-invigorate the failing system. To the aged and infirm a few doses of these valuable PILLS will prove to be

A VERY FOUNTAIN OF YOUTH,

For in every case they add new life and vitality, and restore the waning energies to their pristine state. To the young and middle-aged, they will prove most invaluable, as a ready, specific, and startling medicine. Here is a dream realized, that Ponce-de-Leon sought for three hundred years ago, and never found. He looked for a fountain that would restore the old to vigor and make youth ever

AN ETERNAL SPRING!

It was left for this day and hour to realize the dream, and show in one glorious fact, the magic that made it fair.

THESE FAMOUS REMEDIES!

Cannot stay the flight of years, but they can force back and hold aloof diseases that might triumph over the aged and the young. Let none hesitate then, but seize the favorable opportunity that offers. When taken as prescribed—

FOR BILLIOUS DISORDERS

Nothing can be more productive of cure than these Pills. Their almost magic influence is felt at once; and the usual concomitants of this most distressing disease are removed, These remedies are made from the purest

VEGETABLE COMPOUNDS.

They will not harm the most delicate female, and can be given with good effect in prescribed doses to the youngest babe.

FOR CUTANEOUS DISORDERS

And all eruptions of the skin, the SALVE is most invaluable. It does not heal internally alone, but penetrates with the most searching effects to the very root of the evil.

DR. MAGGIEL'S PILLS

Invariably Cure the following Diseases:

Asthma,
Bowel Complaints,

The Great Eradicator of Special complaints, formerly of Locks Hospital, London, Eight Years in Sacramento, and the last Four Years in San Francisco.

DR. TOZER'S

Experience is of forty year's standing, and during that time he has met with unparalleled success in the treatment of all those diseases generally known as Venereal or Chronic.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will here enumerate some of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering: Nervous Debility, Loss of Memory, Pain in the Limbs and Back, Palpitation of the Heart, Trembling of the limbs, Headache and an aversion to general society, especially that of females. There are a great many more, but these are sufficient, and should you be suffering from any of them, call on Dr TOZER, and he will cure you in a short time, without any interruption to your business—or state your case by letter, and there will be no occasion for your calling at the office.

of the Urethra

is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourself of its terrible results. The worst cases cured in a few days.

Venereal Diseases,

In all their various forms, either Primary, Secondary or Hereditary, completely eradicated from the system. Your constitution being restored to perfect health, there will be no danger of handing down to your children that terrible disease known as Scrofula

Syphilitic Disease,

As it presents itself on this coast, is of a more formidable character than that seen in the Atlantic States or Europe, arising from the fact of its being a compound of Spanish, Chinese and Sandwich Island disease. Those of you who have visited the two countries no doubt have seen the dreadful effects of it on the native and foreign population. It requires altogether different modes of treatment.

The Old Formulas

Of Ricord, Acton and Bostwick are of little account, except to dry up the disease on the surface, leaving the poison in the blood, which, sooner or later, will show itself as a secondary disease in an aggravated form. These facts I have learned by experience, and think I can say without boasting, that I have seen more practice in these diseases than any other physician in San Francisco, dating as it does, from 1849. It becomes you, therefore, to think well before you employ a physician. Who is the proper one to consult? An old experienced one, or one who has recently settled among you?

My plan is purely vegetable, destroying the disease and purifying the blood so that there is no danger of secondary symptoms.

Rheumatism, Neuralgia,

And diseases arising from the use of Mercury, such as pains in the skin bones, swellings of the different joints of the body, running sores, etc., and impurities of the blood, cured in a short time by the use of my VEGETABLE MIXTURES, known only to myself.

Seminal Weakness,

Should you be afflicted with any of the following symptoms, such as weakness of the Back and Limbs Pain in the Head, Dimness of Vision, Nervousness and General Debility, Loss of Memory, Confusion of Ideas, and Depression of Spirits, Evil Forebodings, Self-distrust, and an aversion to society, consult DR. TOZER at once, and he will restore you to perfect health.

To Females.

When you are afflicted with Weakness of the Back and Limbs, Head, Loss of Muscular Power, Palpitation of the Heart, Irritability, Nervousness, Extreme Urinary Difficulties, Derangement of the Monthly Sickness, Sterility, and other diseases peculiar to females, consult DR. TOZER, and you will receive particular attention. Let no false delicacy prevent you, but apply at once, and save yourself from painful suffering and premature death.

My rooms are so arranged that there is no danger of exposure, and of meeting any one save the Doctor

A Grateful Acknowledgement to Skillful Gentlemen.

SAN FRANCISCO, June 1, 1866.

Dr. Chas. H. Tozer;—Dear Sir: You will excuse me for not writing to you sooner. You will please remember me as the individual who called on you for assistance about a year ago. The roof of my mouth had completely rotted out, and my palate dropped and there remained, stopping up the passage so that I could hardly eat. You remember you cut it out at once, which relieved me immediately, and I was enabled to swallow my food, and in a short time began to improve. I took your medicine, and followed your directions for several months. You finally succeeded in stopping the disease, saving my nose and upper lip, though you frequently cautioned me about losing it. I continued to improve until you finally recommended me to go into the country, and before going, by your advice, I had a cast taken of my mouth, in order that I could have a plate made for me to enable me to speak so as to be understood, and am now using it. My eternal thanks are due to you and DR DEMAREST* for the perseverance and skill that you displayed in my case; and I have to thank you for my restored health, and even my life, as I was very near bleeding to death several times from the nose. I am now in Sacramento City, enjoying good health, and I shall recommend all my friends to call on you should they be so unfortunate as to require assistance; and I would advise all persons to avoid certain scientific doctors in your city, for they will send them to a land from whence no traveler returns.

With my best wishes for the success of both of you, I remain, yours, etc., S. S. T.

DR. W. K. DOHERTY'S

Private Medical and Surgical Institute

Sacramento Street, below Montgomery, opposite the Pacific Mail Steamship Company's Office. Private entrance on Leidesdorff street, San Francisco.

Established expressly to afford the afflicted sound and scientific medical aid in the treatment and cure of all Private and Chronic Diseases, cases of Secrecy and all Sexual Disorders.

TO THE AFFLICTED.

DR. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhœa, Gleet, Strictures, Nocturnal and Diurnal emissions, Sexual Disability, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful [illegible] will continue to ensure him a share of public patronage. By the practice of many years in Europe and the United States, he is enabled [illegible] the most efficient and successful remedies [illegible] diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references from men of known respectability and high standing in society. All parties consulting him, by letter or otherwise, will receive the best and gentlest treatment, and implicit secrecy.

DR. DOHERTY would call attention to the following certificates from two of his patients, who, having fully recovered their health, desire to make known their remedial agent. It will be seen their statements are fully authenticated by a Notary Public.

The welfare of society imperiously demand their publicity and they are given more to warn the unwary than to sound the praise of a Physician, of whom hundreds of like cases can be cited during a practice of more than fifteen years.

DR. DOHERTY—Dear Sir: I feel my health so fully restored, that in common gratitude, I believe I should make you some written acknowledgement for your valuable services—particularly as your fee was small for the work performed.

I arrived in this city from the East about one year ago, and was then suffering from an old case of Gleet, complicated with Stricture. Being a stranger in this city, and believing those Doctors who gave such positive assurances of success were necessarily the best, (some of whom have a large number of titles,) I placed myself in their charge and continued under their treatment until I had lost nearly all hope and a considerable sum of money.

I wish to say now that you are the sixth Doctor I have employed, and the only one that has ever done me any service. My Gleet is wholly cured, the Stricture is all removed, and my general health is better than it has been for years.

In conclusion, I would say to the many unfortunates who require medical advice, if you have any doubt as to whom you may employ, ask Dr. Doherty for my addres and call and see me. (I keep store in this city.) My experience may save you many dollars.

I would also add that in the early stage of my disease I used a large amount of the preparations advertised as an infallible cure for Gonorrhœ, Gleet, etc., but never derived any benefit from them.

I am, Doctor, very truly yours,
L—— H——.

Seminal Weakness—A Sworn-to Certificate of a most Remarkable Cure of Spermatorrhœa.

A desire to benefit humanity, and a feeling of gratitude to Dr. W. K. Doherty, alone induces me to make this statement. For many years I have been afflicted with that fearful disease known as "Spermatorrhœa," or Seminal Weakness, the result of self-abuse, but till 1855 experienced but little trouble or inconvenience. In that year however, I had Seminal Weakness to an alarming extent, which was soon followed by the most alarming symptons as weakness of the back and limbs, pain in the head, dimness of vision, nervousness and general debility. My mind, too, was afflicted to such an extent as to seriously impair my memory; my ideas were confused and spirits depressed. I was averse to society, had evil forebodings and self-distrust, and was entirely unfitted for any of the duties of life. From 1855 to the summer of 1863, I employed the very best medical talent I could find, and spent several hundred dollars, but in no instance obtained more than temporary relief. I had about concluded there was no relief for me in this world, but seeing Dr Doherty's advertisement, I thought I would call and see him, as he charged nothing for consultation. I had an interview with Dr. Doherty at his office, in Sacramento street, and his fee for treatment was so reasonable, I determined to try him, though I did not expect much benefit from his treatment. On the 5th of December last I placed myself under his care; in one week I found myself very much improved, and, now, after five weeks' treatment, I feel myself thoroughly cured of all my troubles and in the enjoyment of the best health. Hoping that my experience may be of benefit to others similarly afflicted, I subscribe myself JAMES JOHNSTON.

Subscribed and sworn to before me, this 15th day of January, A. D. 1864.

[L. S.] A. G. RANDALL, Notary Public.

To Females.

K. Doherty, at his Medical Institute, and consult him about their troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. All Married Ladies whose delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. Doherty's Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

THIS CELEBRATED INSTITUTE

has enjoyed on this coast an uninterrupted success of fourteen years, and has become one of the renowned Hospitals of the age. What the celebrated Lock Hospital is to London, and the no less renowned [illegible] Ricord is to Paris, this Institute has become to the Pacific coast. The thousands annually received and cured place it in point of number of patients among the very first of the world and the [illegible] of its treatment ranks it second to [illegible].

PRIVATE DISEASES IN MALES and IRREGULARITIES IN FEMALES are the great destroyers of health. They insidiously attack the system and gradually undermine and destroy it; they drive the bloom from the cheek, the lustre from the eye, the strength from the frame; they give to the world puny and diseased offspring, and poison, through successive generations the race of man. The marks can be seen in Scrofula, Consumption, Cripples, the Idiotic, the Paralytic, the Insane, etc.

There is no more terrible scourge to the human race than those diseases arising from the contamination of Venereal Poison. The mildest forms, by retreating to the blood, hold over the afflicted one, the destruction that is liable at any moment to fall and blight—to utterly destroy—all earthly hopes.

MERCURY, recognized as the most fatal medical enemy to man, combining with the Venereal, doubles its dangers. Those who have been treated with that pernicious mineral poison are not cured; the disease has only assumed a new form.

Do not be satisfied with partial cures

that leave the poison to crawl through the system, eating its way into the tissues and organs beneath the apparently smooth surface, to burst out in the future with a virulence that will baffle the effects of medicine. WHEN PERFECT CURES can be obtained by consulting a physician whose long practice and thorough investigation into the causes of DISEASES of the URINARY ORGANS enables to determine at once the nature of the disease.

In all cases entrusted to the Doctor's care, PERFECT, SPEEDY and PERMANENT,

Cures are Always Guaranteed.

Seminal Weakness or Spermatorrhœa

The young man who experiences that growing weakness in his muscular and mental organization should stop to consider whence it arises. He will find in the weakness of the back, trembling of the limbs, disordered digestion unaccountable failing of the powers of the mind, distaste for society, dread of impending trouble, forebodings of evil, sleeplessness, troubled and lascivious dreams, accompanied by growing deafness, loss of muscular power, and numerous other symptons of disorganization, the positive traces of that most terrible and destructive of all diseases Seminal Weakness—wasting away his powers, destroying his hope of life and manhood, and dragging him along the broken path of his existence towards a premature and loathsome grave. To him who finds his life dribbling out in the discharge of the vital principle of existence in nocturnal and diurnal emissions, the mere cessation of its appearance brings no assurance of relief.

Marriage, that holy office, the safeguard and hope of manhood, brings to such an one no hope of cure, but adds to his misery in the knowledge that the one, who looks to him for so much of her happiness, is a victim to his evil, and an innocent companion of his punishment. He adds to his misery and disorder until hope leaves him. There is no rescue except in proper and skillful treatment. Consult then, at once, a physician whom long practice and careful research has made thoroughly conversant with every phase of the disease. Those who have become the victims of solitary vices, that dreadful, fascinating and destructive habit, which fills thousands o sick-rooms with paralytics and consumptives, and hundreds of untimely graves with its misguided victims, should consult, without a moment's delay, one who will sympathize with their sufferings. To such the Doctor would especially address himself, giving to each and all assurance of a PERFECT and PERMANENT CURE, without hindrance to business, change of diet, or fear of exposure.

Do not forget the address. See below.

Important to Females.

When a female is in trouble or afflicted with disease and requires medical or surgical assistance, the enquiry should be, Where is there a physician who is fully competent to administer relief, and whose respectable standing in society recommends him to the confidence of the community? The Doctor understanding how imperatively necessary these requirements are, feels called upon to interpose, and beg the attention of the afflicted to the fact that he has been a Professor of Obstetrics and Female Diseases for twenty years, and is fully qualified to administer in all cases, both medically and surgically, not in a superficial manner, but in as thorough a manner as years of study and practice—both in hospitals and private families—can make, to save them from the hands of the unqualified, unscrupulous and designing. Therefore families can rely upon him as upon a father. All in affliction can find in him one who will feel and sympathize with and befriend them in trouble—one in whose secrecy the utmost confidence can be placed. Consultation by letter or otherwise, FREE. See address below.

THE CELEBRATED FEMALE REMEDIES, compounded from the private prescription of Dr. Young, have now obtained a most extended popularity, and are correctly viewed to be the safest and surest remedies for the complaints for which they are applied. The constantly accruing testimonials of their efficacy declare them to be pre-eminently superior in their action. No lady should be without these Renovating Agents. None genuine unless procured at this office.
